Biographical Sketch/ Administrative History

Gerry Stephenson (1938?-2003) worked for Bell Canada in Peterborough. After early retirement he turned his attention to the career of his grandfather, John Stephenson, and his identification with the history of the Peterborough Canoe. He was greatly assisted by the ongoing research of Dr Cameron who presented his findings to the Peterborough Historical Society in 1975. Working from this base, Gerry pursued patent records and newspaper and magazine account. In 1987, he published his findings in a Peterborough Historical Society occasional paper entitled "John Stephenson and the Famous 'Peterborough' Canoes" (1987). He continued to pursue research on wooden canoes and boats and at his death was pursuing the influence of George Stephenson in Maine canoe-making.

The papers contain materials that were inherited by Gerry Stephenson from his mother and father (Mr and Mrs Alfred [Fred] J. Stephenson), from his grandmother (Mrs Joseph Sucee) and from his uncle (Mel Sucee).
