## Early Land Patents in Douro Township, the first concession

The Archives of Ontario has prepared an index of the early land patents in Douro Township, and Bill Amell has been using it in preparing an upcoming Trent Valley Archives publication on the early censuses of Douro. We thought our members would enjoy this preview of what is possible to do with the land patent index. We have listed alphabetically the names associated with property in the first concession.

The first column identifies the lot or part lot within the concession.

The second identifies the concession.

The third column identifies a land patent chronological identifier.

The fourth column gives the date associated with the patent: year, month, day as an eight number code.

The next column identifies the type of arrangement tied to the patent: FG is Free Grant. L is Lease.

Extra information is provided in the next column, and you will notice that 1825 or PR identifies Peter Robinson settlers.

The final column lists the patentee. The Trent Valley Archives has a copy of the whole index, but we hope in due course to make it more easily accessible to research.
